Bonita Canyon				
Jump Start Kinder	Kinder	Annie Finnell-Grant	\$305	This class is an introduction to Kindergarten. Students will practice reading and writing, and develop mathematical skills through the use of manipulatives and games. Enrolling your student in this course is an excellent way to start school in a positive manner and head off some of the first day jitters.
Jump Start 1st	1st	Denise Ruiz	\$305	Children entering first grade will review letters and numbers, practice their writing skills, and develop their emergent reading skills. Focusing on the basics and social skills will help your student transition to a full school day next fall.
Active Astronomy 1-2	1st -2nd	Amy Bass	\$320	Active Astronomy Hands-on science and language arts activities for first and second grade budding astronomers. Learn about the sun/star, our moon and the planets. Activities will include constellation viewers, a birth of a star, a model of the phases of the moon and lots more!
Read/Write/Publish 2-3	2nd-3rd	Krystal Chen	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Basic Skills 2-3	2nd -3rd	Amy Henderson	\$305	Students will review and develop basic reading and mathematics skills required for success in Grades 2, 3, and beyond.
Write from the Start 2nd-3rd	2nd-3rd	Mary Hessler/Kathy Covington	\$320	Emphasis on Fine Arts (art, and music) activities that are explored through writing, literature, and math skills.
Junior Journalist 4-6	4th-6th	Alison Garza	\$305	Extra! Extra! Read all about it. Students will learn the details of creating a newspaper. They will learn about different types of articles, copy-editing, writing styles, and publishing! In addition, this course will help students answer "The Five W's" (who, what, where, why,when), to help with reading comprehension and writing skills. The students will also learn about current events and examine age-appropriate newspapers. The junior journalist will be publishing their own newspapers by the end of the course.
Read/Write/Publish 4-6	4th -6th	Ashley Young	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Complex Math Challenges	4th-6th	Clyde Dodge	\$305	Students will use a variety of math skills in complex simulations. In the lengthiest challenge, students form construction companies, and must design and build a bridge out of toothpicks. The bridges are then stress- tested to see how much weight they can bear. In another simulation, students become product testers in a game factory, evaluating the use of probability in game rules and deciding if they are fair. They will then design their own games. Warm-up activities and other simulations are all geared toward developing mathematical reasoning skills.

Jump Start Kindergarten	Kinder	Kelli Cheshire/Helen Ford	\$305	This class is an introduction to Kindergarten. Students will practice reading and writing, and develop mathematical skills through the use of manipulatives and games. Enrolling your student in this course is an excellent way to start school in a positive manner and head off some of the first day jitters.
Jump Start 1st Grade	1st	Jennifer Herman/Karah Carter George	\$305	Children entering first grade will review letters and numbers, practice their writing skills, and develop their emergent reading skills. Focusing on the basics and social skills will help your student transition to a full school day next fall.
Exploratory Art 1st -2nd	1st-2nd	Linda Halopoff/Suzanne Dong	\$320	A hands-on day of art projects especially created for first and second grade levels. The elements of art will be explored through 2-dimensional and 3-dimensional projects. Music is explored along with the art experience and a special show is planned at the end of the 4-week period.
Success in 2nd Grade	2nd	Eileen Kliger	\$305	Soar into second grade with confidence as your child builds proficiency in a wide variety of curriculum activities such as reading fluency, writing skills, minute math, counting money, telling time and more!
Basic Skills 2nd -3rd	2nd-3rd	Jennifer Meloni	\$305	Students will review and develop basic reading and mathematics skills required for success in Grades 2, 3, and beyond.
Read Write Publish 2nd -3rd	2nd-3rd	Shelby Patton/Kathryn Rath	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Set the Stage! 2nd -3rd	2nd-3rd	Alissa Machesky	\$310	Students will put on their own stage presentation of "Character Matters: The Musical". While developing theatrical and performance skills, students will learn problem solving, conflict management, and tolerance. Students will perform their musical at the end of the summer school session.
Art Workshop 3rd-5th	3rd-5th	Christine Choi	\$320	A fun-filled 3 hours of art projects, art movies and art history. Students will create 2 dimensional projects working with such materials as oil pastels, paints, collage, watercolor, and marker. 3-dimensional projects will be created with clay, paper mache, fabric art, and paper sculpture. Parents and friends are invited to an art exhibit of student work during the last week of class.
Musical Theater 4th-8th	4th-8th	Guinevere Morones	\$320	This class will focus on developing vocal and acting technique for the musical theatre style. All students will be cast in a musical production that will be performed at the end of the session.
Novels and Numbers 4th -6th	4th-6th	David Burke	\$305	Students will focus on essential math standards for grades 4th-6th while reading a novel to promote vocabulary, comprehension, and written responses.
Read Write Publish 4th-6th	4th-6th	Megan Seager	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Art Workshop 6th-8th	6th-8th	Martha Faghani	\$320	A fun-filled 3 hours of art projects, art movies and art history. Students will create 2 dimensional projects working with such materials as oil pastels, paints, collage, watercolor, and marker. 3-dimensional projects will be created with clay, paper mache, fabric art, and paper sculpture. Parents and friends are invited to an art exhibit of student work during the last week of class.
Eastshore				
Jump Start Kindergarten	Kinder	Kim Naramore	\$305	This class is an introduction to Kindergarten. Students will practice reading and writing, and develop mathematical skills through the use of manipulatives and games. Enrolling your student in this course is an excellent way to start school in a positive manner and head off some of the first day jitters.
Jump Start 1st Grade	1st	Kathryn Flanagan	\$305	Children entering first grade will review letters and numbers, practice their writing skills, and develop their emergent reading skills. Focusing on the basics and social skills will help your student transition to a full school day next fall.
English is Easy 2-3	2nd-3rd	Jo-Anne Welche/Lauren Keith	\$305	ELD Multi-Grade Proficiency Level- According to need and enrollment this class may be structured with multiple grades and proficiency levels. The class will provide English Language Development support structure around activities such as reading, math, science, and art. Students would have an increase in English fluency and proficiency.
Read, Write and Publish 2nd-3rd	2nd-3rd	Cindy Sumers	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Fun, Facts and Fiction	3rd-4th	Janet Anderson	\$305	Join Mrs. Anderson for an integrated language arts and math class that will focus on basic skills as well as enrichment skills. A highlight of the class will be practicing speaking skills by performing a play on the last day of school.
English is Easy 4-6	4th -6th	Janet Cagley	\$305	This course is designed to help students improve their command of the English language in order to be more successful in the classroom. Students will receive direct instruction and participate in a range of activities to develop their Listening, Speaking, Reading and Writing proficiency. All levels of English fluency and native English speakers are welcome.
Drawing Fundamentals	4th -6th	Rod Cantu	\$320	This is an exciting class that teaches children how to "draw" and "see" as an artist does. Students will increase their artistic skills, expand their creativity, and develop confidence through proven drawing methods. Some of the exercises include contour drawing, drawing "upside-down" (really!), daily "quick" drawings, using grids to compose a picture, perceiving positive and negative space in a picture, and learning about light and shadows. Student will also be exposed to using colored pencils and pastels. By the end of this course, students will see dramatic increase in the quality of their drawings and skills as an artist.
Read, Write and Publish 4th-6th	4th-6th	Glee Anne Jeffries	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.

	grades		cost(\$)	course description
Math Matters 5-6	5th-6th	Timothy Boyd	\$305	A solid foundation in the concepts of 5th and 6th grade mathematics is essential for success in middle school and high school math. Join us as we review and preview the key concepts of upper elementary mathematics. Aside from skills practice, students will engage in solving word problems and realize meaningful applications of their newfound math skills. Math-related games will also be used to foster appreciation of subject matter.
Oceans Workshop I (June 27-July 8)	5th-8th	Bill Brooks/Michael Minyard	\$320	This two-week science workshop for 5th-8th grade students covers all aspects of the ocean, marine biology, ocean recreation, beach safety, and physical oceanography. Six of the ten class meetings, extended to 1:30 p.m., are at Crystal Cove State Beach and San Clemente Beach. Students have to opportunity to snorkel in a kelp forest and rocky reef in order to observe marine life in its natural habitat. Classroom activities investigate the special adaptations of the ocean's animals and experimentation with the physical dynamics of tides, waves, and ocean currents. Students are swim tested and must be able to swim in the ocean. See the ocean by experiencing it! The tuition covers lab fees, field trip transportation as well as the use of masks, snorkels, fins, and paddle boards.
Oceans Workshop II (July 11-July 22)	5th-8th	Bill Brooks/Michael Minyard	\$320	This two-week science workshop for 5th-8th grade students covers all aspects of the ocean, marine biology, ocean recreation, beach safety, and physical oceanography. Six of the ten class meetings, extended to 1:30 p.m., are at Crystal Cove State Beach and San Clemente Beach. Students have to opportunity to snorkel in a kelp forest and rocky reef in order to observe marine life in its natural habitat. Classroom activities investigate the special adaptations of the ocean's animals and experimentation with the physical dynamics of tides, waves, and ocean currents. Students are swim tested and must be able to swim in the ocean. See the ocean by experiencing it! College Park

Jump Start Kinder	Kinder	Andrea Vyn	\$305	This class is an introduction to Kindergarten. Students will practice reading and writing, and develop mathematical skills through the use of manipulatives and games. Enrolling your student in this course is an excellent way to start school in a positive manner and head off some of the first day jitters.
Jump Start 1st	1st	Susan Schmidt	\$305	Children entering first grade will review letters and numbers, practice their writing skills, and develop their emergent reading skills. Focusing on the basics and social skills will help your student transition to a full school day next fall.
Art & Writing 2-3	2nd-3rd	Johnnie Hunt	\$305	In this class, students will learn the components of the writing process using art as a form of expression. Students will focus on watercolor, tempera, and oil pastels. Everyday there will be an art project to take home!
Basic Skills 2-3	2nd-3rd	Katie Porto	\$305	Students will review and develop basic reading and mathematics skills required for success in Grades 2, 3, and beyond.
Read/Write/Publish 2-3	2nd-3rd	Patricia DallaBetta	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Mastering Microsoft Office	4th-6th	Kelly Tyndal	\$305	Learn the ins and outs of Microsoft Office (2010). Students will be learning various features of Word, Excel, and PowerPoint by gaining skills and doing activities that will be helpful with real-life situations and their educational career. Students need to provide their own USB drive to save files.
Novels and Numbers 4th -6th	4th-6th	Michael Clarke	\$305	Students will focus on essential math standards for grades 4th-6th while reading a novel to promote vocabulary, comprehension, and written responses.
Read/Write/Publish 4-6	4th-6th	Kyle Dugan	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Science Workshop 4-6	4th-6th	Jessica Lingenfelter/Brian Cady	\$320	Does your child LOVE science lab? If so, he/she will enjoy our combination of instruction and hands-on experiments designed to teach all about the natural world and what we can learn from it. Activities will be delve into the worlds of Physical, Life and Earth Sciences to create exciting experiences unique from what students learn during the regular school year. The Science Lab Workshop will be taught by a credentialed Science Specialist.

Brywood

Jump Start Kindergarten	Kinder	Chantal Barney	\$305	This class is an introduction to Kindergarten. Students will practice reading and writing, and develop mathematical skills through the use of manipulatives and games. Enrolling your student in this course is an excellent way to start school in a positive manner and head off some of the first day jitters.
Jump Start 1st Grade	1st	Jon Nakano/Lauren Nelson	\$305	Children entering first grade will review letters and numbers, practice their writing skills, and develop their emergent reading skills. Focusing on the basics and social skills will help your student transition to a full school day next fall.
Basic Skills 2nd-3rd	2nd-3rd	Sue Nenadov	\$305	Students will review and develop basic reading and mathematics skills required for success in Grades 2, 3, and beyond.
Read, Write and Publish 2nd-3rd	2nd-3rd	Jill Garmon	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Kitchen Chemistry 3-4	3rd-4th	Gregg Colbert	\$320	This course will allow children to engage in scientific explorations using things commonly found in their own kitchen. Students will explore the properties of foods or chemicals and investigate their changes or reactions to other matter. They will conduct meaningful observations and create lab reports that requires them to formulate hypotheses and complete a scientific investigation to draw conclusions. The students will engage in experiments such as keeping bubbles from popping, making glue from vinegar and milk, and testing for iron in popular breakfast cereals. They will also conduct experiments where they will test the chemical reactions of kitchen products such as baking soda and vinegar to explore changes in matter as well as changes in the states of matter. The students will gain a greater understanding of chemistry and matter, and will be able to use the scientific method to create and test hypotheses.
Keep it Moving	4th-6th	David Hough	\$305	Enjoy a daily dose of pure sports and fun with your friends. We will play a variety of team and individual sports such as pickleball (paddle tennis), kickball, basketball, bocce ball, horseshoes, ultimate Frisbee, flag football, and much more. This class is a great way to stay active this summer while building social skills, sportsmanship, and new friendships.
Read, Write and Publish 4th-6th	4th-6th	Christine Miller	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Theatre 5-6	5th-6th	Kate Krajanowski	\$305	Students will learn how to speak in front of an audience by performing and presenting monologues and speeches they create. Students will not only be performing, but will also learn how to do background research to build characterization. Speech topics include current events, personal stories, poetry, and published works.

Stonegate

Jump Start Kindergarten	Kinder	Mina Seo/Kim Leschke	\$305	This class is an introduction to Kindergarten. Students will practice reading and writing, and develop mathematical skills through the use of manipulatives and games. Enrolling your student in this course is an excellent way to start school in a positive manner and head off some of the first day jitters.
Jump Start 1st Grade	1st	Jean Nakano/Hadar Maor	\$305	Children entering first grade will review letters and numbers, practice their writing skills, and develop their emergent reading skills. Focusing on the basics and social skills will help your student transition to a full school day next fall.
Basic Skills 2nd-3rd	2nd-3rd	Beth Bowman	\$305	Students will review and develop basic reading and mathematics skills required for success in Grades 2, 3, and beyond.
Read, Write and Publish 2nd-3rd	2nd-3rd	Summer Peig/Judy Hawley	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Critter Safari 2nd-3rd	2nd-3rd	Sheryl Rosebrough	\$320	A class for scientist who love snakes, bugs, spiders, and many other critters! Art projects and bug collecting is included as we read, write about, and explore the world of creepy crawlers. Students will even be bringing some little critters home!
Novels and Numbers 4th -6th	4th-6th	Steve Robinson	305	Students will focus on essential math standards for grades 4th-6th while reading a novel to promote vocabulary, comprehension, and written responses.
Orchestra I (Intermediate Orchestra) -5th Grade	5th	Henry Miller	\$320	This class is for the incoming 5th grade student who has had at least one year of instruction on violin, viola, cello, or string bass. Students will use playing skills and techniques already learned in their first year of string playing and will move to a higher level of playing through challenging and varied orchestra repertoire. All students will participate in both string and full orchestra ensembles. Other class activities include learning music theory, music history, and note reading from a variety of fun group activities. Students will perform in an evening concert at the conclusion of the summer school class.

	grades		cost(\$)	course description
Band I (Intermediate Band)- 6th Grade	6th	Rebecca Venlet	\$320	Students in this program will have the opportunity to learn new skills and techniques and be able to move their playing to a higher level by learning challenging and varied music. The program consists of band, string orchestra and full orchestra that will perform in an evening concert at the conclusion of the summer school class. Other class activities include learning music theory, music history, and note reading from a variety of fun group activities. For wind students entering 6th grade with at least one year of playing experience on their instrument.
Band II (Advanced Band)- 6th-8th Grade	6th-8th	Stephanie Carter	\$320	Students in this program will have the opportunity to learn new skills and techniques and be able to move their playing to a higher level by learning challenging and varied music. The program consists of band, string orchestra and full orchestra that will perform in an evening concert at the conclusion of the summer school class. Other class activities include learning music theory, music history, and note reading from a variety of fun group activities. For wind and percussion students entering 7th and 8th grade with at least two years of playing experience on their instrument.
Orchestra II (Advanced Orchestra)- 5th -8th	5th-8th	Dianna Gray	\$320	This class is for the incoming 5th, 6th 7th and 8th grade student (advanced level 5th grade students with at least two years of playing experience may sign up for the class, however they may be placed in the Intermediate Orchestra based upon possible instrumentation needs in that group) who has had at least two years of instruction on violin, viola, cello, or string bass. Students will learn a variety of challenging musical repertoire and will participate in both string and full orchestra ensemble. Other class activities include learning music theory, music history, and note reading from a variety of fun group activities. Students will perform in an evening concert at the conclusion of the summer school class. (5th grade students signing up for this class must have at least two years of playing experience on a string instrument)
Read, Write and Publish 4th-6th	4th-6th	Harmony Hager	\$305	This class is for students who love reading, writing, and sharing their work. Student will be reading various types of award-winning literature from fantasy to nonfiction. They will be engaged in many writing projects that will not only review important skills but will introduce the students to new writing styles and fun new formats.
Science Workshop 4-6	4th-6th	Danielle De Frank	\$320	Does your child LOVE science lab? If so, he/she will enjoy our combination of instruction and hands-on experiments designed to teach all about the natural world and what we can learn from it. Activities will be delve into the worlds of Physical, Life and Earth Sciences to create exciting experiences unique from what students learn during the regular school year.The Science Lab Workshop will be taught by a credentialed Science Specialist.
Video Production 4-6	4th-6th	Hali Kessler	\$305	Students will learn how to write, plan, shoot and edit short digital media production, including commercials, PSAs and short films.
Sierra Vista Middle School				
Street Hockey	6th-8th	Eric Zuercher	\$210	An introduction to street hockey/roller hockey. Students would be introduced to the basics of street hockey, including passing, shooting, stickhandling, team fundamentals, etc. The class would progress from individual skills to team play and finally scrimmages. Open to students entering grades 6-8. Course runs from 8:00-10:00 am.
