

Dear Parents and Families,

As we gear up for first grade, many children are able to spend more time on academic learning at home. In addition to the homework packets every week, please have your child work on the following math pages from the Math Expressions Homework and Remembering books Volume 2. You may tear out the pages and return them to school with the regular homework packets.

If your child struggles with completing the math pages, please choose the ones that work on concepts your child has difficulty with, and leave the others. You can even save those for summer break. Please note that the pages assigned are aligned with the lessons planned for that week, so some weeks there are more pages than others.

Thank you for your support!
