

## **Traffic At Lakeside**

Traffic congestion before and after school at the Lemongrass entrance to Lakeside is much improved. However, we want to remind carpoolers that making U-Turns and passing cars waiting in lines adds to the danger for our students entering or exiting school.

Please be especially careful of walkers. We ask that you pick-up and drop-off on the school side of the street only and keep the parking lot free of cars. Staff members need to be able to get out of the lot for district level meetings or other obligations, and we have lots of students passing along the sidewalk and through the parking lot making it difficult to see them.

Finally, consider picking-up and dropping-off at Yale Loop or at the Stone Creek entrance to the school, or across the field. All three areas are less congested. Using the Stone Creek entrance would be most helpful. There are no homes fronting the curb and no driveways to block. You may line up without worry. Thanks again for your help.
