---

Dear Future Plaza Vista Families,

Welcome to Plaza Vista School. I feel extremely fortunate to work with such a supportive and dedicated community; a dynamic and insightful staff; and enthusiastic, hard-working students. It is obvious that a fundamental reason for much of the success of Plaza Vista is the active participation and valuable contributions made by the community; a community with goals of enhancing the strength of the instructional programs and a strong motivation for doing what is good for kids. As I look forward to the 2010-2011 school year, I envision a year of growth and learning for all. My highest priority will be to ensure that your children have a safe environment supportive of the high quality learning and social growth provided by the rich programs and exceptional teaching that have been a part of this community for many years. I am committed to building relationships and forming connections by listening, learning, and collaborating with staff, students, and parents.

Sincerely,

Heather D. Phillips, Principal
