FUNNIES, FAVORITES, & FACTS

The baseball World Series is coming. Since the Yankees are 10.5 games ahead and the Angels are 8 games ahead going into the American League playoffs, I hope they get to play each other. In the National League, I think the Dodgers who are 3.5 games ahead and the Cardinals who are 7.5 games ahead will also go to the playoffs. Wouldn't it be great if the Dodgers and the Angels played each other in the World Series?!

--David Miller, Fifth Grade

This fall, students from MIT were able to take pictures of the edge of space. They used simple items that anyone can find like a camera, a styrofoam cooler, a cell phone and a balloon. It took 5 hours from launch to landing. It went as high as 93,000 feet. Then, it landed only 25 miles from the launch site. When it landed, the camera was unharmed and they got great pictures. Check out CNN Student News on the web for the interesting details.

--Blake Carr, Fifth Grade

Do you think you're too old for Dr Seuss now that you are in the upper grades? Think again! You're never too old for the musical, Seussical! This play is based on 13 Dr Seuss stories, but the main stories are *Horton Hatches the Egg*, and *Horton Hears a Who*. It's fun to try to spot the other stories in the play. It has great catchy songs, and many comical features. If Seussical is ever showing close by, don't miss it!

--Katherine Paladichuk, Fifth Grade

What do you call a cat who gets thrown in the dryer?

Fluffy.

Why do you always find things in the last place you look?
Because when you find it, you stop looking.

Fact: The Rinspeed SQuba is a convertible car that can move underwater like a submarine.

--Jacob Bello, Fourth Grade
