

Dear Parents and Families,

Please have your child work on the following math pages from the Math Expressions Homework and Remembering Book, Volume 1. Tear out the indicated pages for the week, staple to weekly homework, and return the pages to school on Friday. Make sure your child's name is on all pages!

These pages reinforce math lessons already learned at school, and should be done as independently as possible. Read the directions and provide help only when needed. If your child experiences great difficulty, please talk to your teacher about ways to help at home.

Thank you for your support!
